Model 480e Screen Telephone

With its large eight line display screen, customizable softkeys and improved headset options, the enhanced Model 480e provides even more features and more flexibility for Small Business communications.

Introducing the Model 480e by Aastra Telecom. Loaded with features designed to give you more – more telecommunication power than ever before.

With a large backlit display screen and six "softkeys" that provide different options based on activity, the Model 480e provides step-by-step instructions and menus for ease of use. Both the screen and multi-function indicator light are designed to provide more information with less effort.

Or, using our Web Configurator tool, label and program the on screen softkeys as one touch dialers for those you call frequently.

All these features and more, plus the quality and reliability you would expect in a business telephone, in a compact design that takes up less desk space. The Model 480e – the "more" tool for small business.
