OpenConference 500

For Aastra 800, OpenCom 100 and OpenCom 1000

OpenConference 500 offers a scalable number of conference rooms and participants, thereby perfectly assisting your in-house communications and a regional or international organisational structure.

With OpenConference 500 you proceed and supervise conferences easily and comfortably. The OpenCom 1000 system terminals assist you with display indications and menus which show the conference participants either by name or by number. For Aastra 800, OpenCom 100 and other terminals, OpenConference 500 provides the virtual conference rooms via DTMF procedures.

In conjunction with OpenAttendant 500 you can organise conference rooms which anyone can dial into as well as PIN-protected conference rooms.

OpenConference 500 on Aastra 6775ip with OpenCom 1000

Features

- Scalable number of conference participants and rooms
- For internal and / or external participants
- Conference supervision operated on system phones using multilingual WAP menus[1] in three languages (D, EN, F) on:
  - Aastra 6770 range
  - Aastra 142d
  - Aastra 600d range
- DTMF based feature control for terminals not supporting WAP menus
- No additional hardware required
  - OpenCom 100: OpenSoftphone 100
  - OpenCom 1000: IP-based connection via LAN (with Concentrated IP Device CID)
- Perfect integration with OpenAttendant 500 (for PIN-protected dial-in for external and / or internal participants)
- Conference rooms anyone can dial into
- PIN code protected conference rooms

[1] *WAP menus on system terminals are not yet supported on Aastra 800 / OpenCom 100*
