1. Introduction

This document provides information on Aastra's VentureIP Release 1.3 (Load 2.15.0) which includes the VentureIP 480i and Gateway products.

VentureIP 480i Release	1.3
VentureIP 480i Load Version	2.15.0
VentureIP 480i Load Date	Aug 01, 2006
VentureIP 480i Bootloader Version	2.2.0
VentureIP Gateway Load Version	2.15.0
VentureIP Gateway Load Date	Aug 01 2006
VentureIP Gateway Bootloader Version	2.2.0
Aastra Release VentureIP and Gateway Filenames	FC-0047-01-06/FC-0048-01-06
Aastra Release Date	August, 2006

2. Hardware Supported

This release of software is compatible with the following Aastra IP portfolio products:

- VentureIP 480i IP Phone
- VentureIP Gateway

3. Upgrade Instructions

IMPORTANT: This release of software requires existing VentureIP systems to be running Aastra Release 1.2 (Load 2.13.0, Bootloader 2.2.0).

Failure to upgrade the VentureIP system from these loads or higher may result in sets/gateways being returned for repair via RMA.

Users should upgrade using the AastraVentureIP_UpgradeWizard_2_15_0.exe file included with the software zip file.

4. New Features Available in this Release

New features

- Integrated access to Web administration system options and e-mail notification of voicemail.
- No keying or registration is required to get those features to work. They are turned on by default.
- For the Web Administration and E-mail Notification guide, go to Aastra Web site (http://www.aastratelecom.com/support/show_manuals.asp?p=228).

Improved Audio Quality

- Lest audio distortion when two parties (internal with external) speak at the same time.
- This fix diminishes that distortion to a more acceptable level.

5. Minor Issues Resolved in this Release

Issue Number	Description
DEF10286	Fixed a French prompt in the paging screen from "1.General Page" to "1.Recherche tous".
DEF10287	Fixed a French prompt in the Set Management menu from "2. Gestion des postes" to "2. Gestion postes"
